CAUGHT BETWEEN CARS

Miner Sustains a Broken Leg While at Work.

Claud Woodruff, a miner employed in the Terry Coal and Coke Company's mines, a few miles west of Crofton, was caught between two coal cars Wednesday and his right leg was broken just below the knee and mashed. It is understood that no blame attaches to the company on account of the accident. Woodruff lives with his mother near the mines. He will be laid up several weeks.

Lucas Coming.

Mr. Frank A. Lucas, of Paducah is taking another swing around the circle, and is expected to arrive here next Monday and start the trouble mill grinding again. There is no telling where the lightning will strike when he is in town. He ought to be quarantined.

The use of the bloodhound in the Smith case in this county, and York case in Anderson county, and in a number of other murder cases over the state within the last year, has suggested that a state kennel should be established by act of the legislature, as has been done in a number of southern states in the last few years. The next general assembly will be asked to consider the proposition.

ARMISTICE ARRANGED.

Contending Armies Will Do No More Fighting.

TREATY ABOUT READY.

Japanese Minister Calls On Russian Minister In His Room.

Portsmouth, N. H., Sept. 1.—Both Russia and Japan have agreed to the immediate conclusion of an armistice. Russia's consent reached Mr. Witte at Portsmouth, N. H., last night in a cablegram from Count Lamsdorff. Later Mr. Takahira, the Japanese envoy, went to Baron DeRosen's room and explained that he and Baron Komura had received instructions to arrange the terms of an armistice. It is probable that a meeting will be held for the proclamation of a complete suspension of hostilities preliminary to the arrangement of the details by Gen. Linvitch and Field Marshal Oyama. Rapid progress is being made in drafting the treaty of peace. Ten articles have been completed and it is believed that document will be ready for the signatures by Tuesday or Wednesday of next week.

STIRRING SCENE TO SEE.

Contract Calls For The Completion of The System By February.

In five months the contract for the sewer system is expected to be completed. The contract with the gentlemen who have undertaken the work calls for its completion by the first of February.

A large force of 40 laborers was put to work excavating for two of the mains yesterday, beginning at the Illinois Central railroad up to Main street and taking a course north through the center of Main. The contractors are paying good wages to laborers and the money thus spent will find its way into the cash drawers of merchants, and this new enterprise, the construction of which seemed so improbable at one time will be of great and lasting benefit to the city.

Attractive.

NEGROES WILL MEET.

Great Rally of Colored Planters to Be Held in Clarks-ville On Sept. 30th.

THE LABOR PROBLEM.

Chairman Prince Will Preside at the Meeting.

By request of the colored farmers, Chairman Prince has named Saturday, Sept. 30, as "Negro Farmers' Day." The meeting will be held at the court house. Mr. Prince will preside, and the negroes will choose their speakers from their own ranks to talk about this tobacco question, in which they are really more interested than the white folks, because it is from this source that they get their living, and it makes them fume and sweat blood for cold bread without gravy.

The truth is the trust has about starved out the farm labor of this section, who depend on share cropping and tobacco for a living. In fact all strong men, who do not own little farms, and are able to move, have left the farms for other employment, and few are left to kill worms except the old men with large families, who are unable to get away. This fact was illustrated in the district reports here Monday, showing the scarcity of labor, and extra hands demanding \$1 to \$1.50 per day and board. There are many negroes in the county who own small farms and have been greatly oppressed by the low trust prices for tobacco, while share croppers have rarely come out even, being left hopelessly in debt.

The negroes to a man are strong friends to the Farmers' Organization. They understand the situation and many belong to the white people's organization, and it can be said to their credit, not one has ever deserted. Now they see the necessity for more activity, and have taken it into their hands to form an organization of their own, to protect themselves against the romancers and riding delegates, who prowl through, trying to dupe the ignorant, sowing dissension and cheating the poor out of their little crops.—Clarksville Leaf-Chronicle.
